ABSTRACT

A revision of a bibliography published in 1970, this bibliography cites approximately 340 books, periodical articles, and newspapers found in the Mexican American Materials Collection at the University of Texas at El Paso. The materials, published between 1900 and 1971, are arranged alphabetically by author or title and are numbered sequentially. A short abstract is included for some entries. This revised edition is more selective in two major areas: history of Mexico, and relations between Mexico and the United States. In addition to these changes, more periodical articles have been included. Subject and co-author indices are provided. (NQ)

INTRODUCTION TO THE SECOND EDITION

The Library has been able to augment and develop its collection of materials about Mexican Americans to a considerable degree since the first bibliography on this subject was published in 1970. During this year the Library has obtained a fairly large number of new and major studies, as well as other materials bearing on Mexican Americans in various ways. In addition to these new research material published, reprint companies have begun to publish earlier works on all aspects of Mexican American life, and the Library has begun to select and purchase this material. Because of the greater availability of all types of materias pertaining to the Mexican American, this revised edition of the bibliography is more selective in two major areas: history of Mexico, and relations between Mexico and the United States. In addition to these changes, many more periodical articles have been included in this edition.

Cooperation from many colleagues in the Library has been most helpful in developing this bibliography. Eloy Galindo and Thomas Estrada assisted greatly in the area of periodical literature. Jess E. Duggan, Associate Librarian and editor of the Library's bibliography series, provided guidance in all areas of this effort. Cesar Caballero has worked in building the Library's collection of periodicals and newspapers, and he has been instrumental in the technical production of this bibliography. Thanks are due especially to University Librarian Baxter Polk, who has encouraged and assisted us all.

ORGANIZATION OF ENTRIES AND INDICES
